Dear BBCers:

Jane Johnson was kind enough to inform my office of your Bicentennial expedition by bicycle from the State of Washington to Washington, D. C., and I was greatly impressed with your project. I also like to ride a bike, and at your ages would have given much to join such an exciting expedition.

I congratulate each of you on your success and trust that the trip was as exciting for you as it sounds to me. I am sure it was a great experience and one you will always remember.

Sincerely,

Neil Goldschmidt
